## Fundamentals of Color: Shade Matching and Communication in Esthetic Dentistry

By Stephen J. Chu, Alessandro Devigus, Rade Paravina, Adam Mieleszko

When dental practitioners lack training in the art and science of color, the deficiency often becomes glaringly evident in the quality of their restorative work. This book was written to simplify the study of color and help dentists communicate shade easily and accurately. It begins by presenting the basics of color theory within the context of esthetic dentistry and the factors that affect the transmission and perception of color. This is followed by how-to chapters on conventional and technology-based shade matching, which highlight the advantages and drawbacks of each approach and provide step-by-step shade-matching methods and protocols. This updated and expanded second edition also includes chapters on the use of digital photography for shade verification and the influence of material selection on color matching. In the final two chapters, the authors present their own recommended shade-matching protocol (which combines conventional and computer-based techniques) and an expanded series of cases demonstrating its application in various clinical scenarios. Highly recommended for students, general practitioners, and specialists.

## Contents

1. Why Study Color?
2. Color Theory
3. Elements Affecting Color
4. Conventional Shade Matching
5. Technology-Based Shade Matching
6. Digital Photography

7. Material Selection

## **Editorial Review**

### **Review**

A definite keeper, this is a textbook I will refer to whenever I have a challenging shade to match. It is easy to read and understand, very clearly presented and lavishly photographed. By understanding the science and art behind shade selection, one can only become a better practitioner. --George D. Reskakis, DDS, - The New York State Dental Journal, June/July 2011

This is an ideal read for dental students and experienced general dental practitioners and dental technicians alike. This modern approach to shade selection will improve job satisfaction by helping to improve the quality of care that we provide our patients. --O. Morgan, - British Dental Journal, May 2012

## **Users Review**

### **From reader reviews:**

#### **Inez Morales:**
