### **Editorial Review**

Review

#### **Praise for the Second Edition:**

In the last 6 months or so I have discovered the text-book **Managing & Organisations**, and I have been completely amazed by it! This book has been acting as my 'go-to' guide, my conceptual map, my point of reference, and my starting point on an uncountable number of areas. It is of course understood that most textbooks are incapable of providing depth of knowledge, particularly when considering the amount needed to satisfy Ph.D. criteria. However, this text is an exception. But the greatest remark I can make of it is that it is such fun to read. I have actually found myself immersed in topics that otherwise are of no concern to my current research
