Martingales and Markov Chains: Solved Exercises and Elements of Theory

By Paolo Baldi, Laurent Mazliak, Pierre Priouret

A thorough grounding in Markov chains and martingales is essential in dealing with many problems in applied probability, and is a gateway to the more complex situations encountered in the study of stochastic processes. Exercises are a fundamental and valuable training tool that deepen students' understanding of theoretical principles and prepare them to tackle real problems.

In addition to a quick but thorough exposition of the theory, *Martingales and Markov Chains: Solved Exercises and Elements of Theory* presents, more than 100 exercises related to martingales and Markov chains with a countable state space, each with a full and detailed solution. The authors begin with a review of the basic notions of conditional expectations and stochastic processes, then set the stage for each set of exercises by recalling the relevant elements of the theory. The exercises range in difficulty from the elementary, requiring use of the basic theory, to the more advanced, which challenge the reader's initiative. Each section also contains a set of problems that open the door to specific applications.

Designed for senior undergraduate- and graduate level students, this text goes well beyond merely offering hints for solving the exercises, but it is much more than just a solutions manual. Within its solutions, it provides frequent references to the relevant theory, proposes alternative ways of approaching the problem, and discusses and compares the arguments involved.

Editorial Review

Users Review

From reader reviews:

George Marsh:

Have you spare time for a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a move, shopping, or went to the particular Mall. How about open or read a book titled Martingales and Markov Chains: Solved Exercises and Elements of Theory? Maybe it is for being best activity for you. You recognize beside you can spend your time together with your favorite's book, you can smarter than before. Do you agree with the opinion or you have some other opinion?

Delores Nault:

The ability that you get from Martingales and Markov Chains: Solved Exercises and Elements of Theory could be the more deep you looking the information that hide in the words the more you get enthusiastic about reading it. It does not mean that this book is hard to recognise but Martingales and Markov Chains: Solved Exercises and Elements of Theory giving you joy feeling of reading. The writer conveys their point in particular way that can be understood by simply anyone who read this because the author of this reserve is well-known enough. This book also makes your personal vocabulary increase well. Making it easy to understand then can go along, both in printed or e-book style are available. We propose you for having this kind of Martingales and Markov Chains: Solved Exercises and Elements of Theory instantly.

James Drennan:

Reading a reserve can be one of a lot of exercise that everyone in the world likes. Do you like reading book so. There are a lot of reasons why people fantastic. First reading a guide will give you a lot of new data. When you read a e-book you will get new information since book is one of several ways to share the information or their idea. Second, looking at a book will make anyone more imaginative. When you examining a book especially fiction book the author will bring you to imagine the story how the personas do it anything. Third, it is possible to share your knowledge to some others. When you read this Martingales and Markov Chains: Solved Exercises and Elements of Theory, you could tells your family, friends in addition to soon about yours book. Your knowledge can inspire average, make them reading a reserve.

Linda White:

Spent a free time and energy to be fun activity to do! A lot of people spent their sparetime with their family, or all their friends. Usually they undertaking activity like watching television, gonna beach, or picnic within

the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your current free time/ holiday? Can be reading a book might be option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the publication untitled Martingales and Markov Chains: Solved Exercises and Elements of Theory can be great book to read. May be it can be best activity to you.
