Anthrotheology: Searching for God in Man By Dr. Heather Lynn

There is ancient knowledge so powerful, it has been hidden, distorted, and used to enslave humanity for thousands of years. Using an interdisciplinary approach to archaeology, combined with personal life experiences and metaphysical insight, author, historian, and archaeologist, Heather Lynn, presents questions and theories about the origin of human consciousness, God, and the power structures that have come to dominate our world. Amid modern science, occult wisdom, metaphysics, and mythology, what do we really know about consciousness? What do we really know about ourselves? Anthrotheology is an empowering and thought provoking book that will change the way you look at the world and yourself.
