C# 6.0 Cookbook: Solutions for C# Developers By Jay Hilyard, Stephen Teilhet

Completely updated for C# 6.0, the new edition of this bestseller offers more than 150 code recipes to common and not-so-common problems that C# programmers face every day. More than a third of the recipes have been rewritten to take advantage of new C# 6.0 features. If you prefer solutions to general C# language instruction and quick answers to theory, this is your book. *C# 6.0 Cookbook* offers new recipes for asynchronous methods, dynamic objects, enhanced error handling, the Roslyn compiler, and more.

Here are some of topics covered:

- Classes and generics
- Collections, enumerators, and iterators
- Data types
- LINQ and Lambda expressions
- Exception handling
- Reflection and dynamic programming
- Regular expressions
- Filesystem interactions
- Networking and the Web
- XML usage
- Threading, Synchronization, and Concurrency

Each recipe in the book includes tested code that you can download from oreilly.com and reuse in your own applications, and each one includes a detailed discussion of how and why the underlying technology works. You don't have to be an experienced C# or .NET developer to use *C# 6.0 Cookbook*. You just have to be someone who wants to solve a problem now, without having to learn all the related theory first.

Editorial Review

About the Author

Jay Hilyard has been developing applications for the Windows platform for over 20 years, including .NET. He's published numerous articles in MSDN Magazine. Jay currently works at Newmarket, an Amadeus company.

Stephen Teilhet started working with the pre-alpha version of the .NET platform and has been using it ever since. At IBM, he works as the lead security researcher on their static source code security analysis tool, which is used to find vulnerabilities in many different languages, including C# and Visual Basic.

Users Review

From reader reviews:

Harry Greene:

Book is written, printed, or descriptive for everything. You can realize everything you want by a reserve. Book has a different type. As we know that book is important point to bring us around the world. Adjacent to that you can your reading ability was fluently. A guide C# 6.0 Cookbook: Solutions for C# Developers will make you to become smarter. You can feel much more confidence if you can know about every little thing. But some of you think which open or reading any book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you looking for best book or acceptable book with you?
