Editorial Review

Review

As part of Infosys Labs, we have Microsoft Technology Center (MTC), a focused group of experts on Microsoft products and platforms. Over the last decade, MTC and Sudhanshu and Suchi in particular, played a pivotal role in critically evaluating and helping shape an array of Microsoft products and platforms. The book presents broad and deep coverage of key technologies released as part of .NET Framework 4. Our authors have taken painstaking effort towards research and experimentation to carve out this nice book capturing practitioner's views and guidance on technology. I am sure the .NET community and customers across the globe would find it useful in their efforts to understand and adopt .NET Framework 4.
?Kris Gopalakrishnan, Executive Co-Chairman, Chairperson, Executive Council of Infosys Ltd.

Though there are many books that cover .NET, there are very few books that provide a practitioner's perspective. This book provides comprehensive coverage of latest .NET Framework 4 features. In this book, the authors introduce us to new features of .NET, provide deep insights into it, and explain how it can be applied in enterprise application development scenarios. … highly recommended for those who are interested in understanding and applying .NET Framework 4 features in their day-to-day work.
?Naveen Kumar, Principal Architect, Microsoft Technology Center, Infosys Ltd.

… excellent in-depth coverage of .NET Framework 4 with relevance to enterprise application development.
?Subu Goparaju, Senior Vice President, Head of Infosys Labs, Infosys Ltd.

The book not only helps build in-depth understanding into .NET Framework 4 technologies … but also presents our insights and points of view to help you succeed by making the right choices. Join us as we embark on this fascinating exploration. Happy reading!
?Prasad Joshi, Vice President, Infosys Labs, Infosys Ltd.

About the Author

Sudhanshu Hate is a senior technology architect at Infosys Ltd. He has 13 years of industry experience working across various stages of SDLC. He has diverse technology experience ranging from Oracle, Delphi, and Java, to Microsoft .NET (.NET Framework, WCF, WF, Entity Framework), and the SQL Server BI platform. For the last 8 years, he has been responsible for technology research, envisioning, building, and consulting on Microsoft technology-based solutions. He has also been instrumental in taking solutions to Fortune 500 customers in EMEA and the US.

Sudhanshu is passionate about understanding technology levers and aligning them for business benefits. These days he is closely following Cloud Computing trends with focus around Microsoft Azure as a platform. He graduated third in his class of industrial engineering undergraduates and has authored papers that are available at Infosys' Technology Showcase (http://www.infosys.com/microsoft/resource-center/Pages/technology-showcase.aspx), presented in external forums such as Microsoft Virtual TechDays, the Third India Software Engineering Conference (ISEC 2010), and blogs at

http://blogs.infosys.com/microsoft.

Suchi Paharia is a technical lead at Infosys Ltd. She has over 6 years of experience in building applications using Microsoft technologies. As a consultant, she has helped architect and design .NET applications for many customers. She specializes in the middle tier and works extensively on WCF and WF technologies.

Users Review

From reader reviews:
