Boy, Were We Wrong About the Weather! By Kathleen V. Kudlinski

Hurricanes, Thunder and Lightning, climate change, Wind, Rain. We were once wrong about all of these. But are we right now? Find out in the latest book in this award-winning series.

Ancient Sumerian warriors used to think that lightning and thunder were caused by an angry weather god—boy, were they wrong!

Even today once common ideas about how our weather and climate work are changing as new discoveries are being made. Kathleen V. Kudlinski and Sebastià Serra team up to debunk old—and sometimes silly—myths about weather and to celebrate the pioneers that made meteorology the science it is today.

This award-winning series is especially meant for the budding scientist and is perfect for children who are fascinated by the natural world and how it works.

Editorial Review

From School Library Journal

Gr 2–4—Following the pattern established in earlier titles, Kudlinski uses the refrain "Boy were we wrong..." to contrast weather misconceptions throughout history with modern-day understandings. She explores the meaning of terms such as meteorology and hurricane, which originated from ancient beliefs and misguided theories, and she explains that some myths and legends contained elements of truth. Accessible information is presented concisely, and the clever, humorous tone of the text complements Serra's lively, engaging cartoon illustrations. There is plenty here to inspire even the youngest readers to seek out more material about the subject. The author encourages kids to become involved with tackling global warming and to see themselves as potential scientists. VERDICT A valuable resource for report writing and pleasure reading alike.—Gloria Koster, West School, New Canaan, CT

About the Author

Kathleen Kudlinski is the award-winning author of more than forty books for children, including the Boy, Were We Wrong series. She lives in Connecticut and Vermont.

Users Review

From reader reviews:

April Robles:
