Ways of Knowing in HCI From Springer

This textbook brings together both new and traditional research methods in Human Computer Interaction (HCI). Research methods include interviews and observations, ethnography, grounded theory and analysis of digital traces of behavior. Readers will gain an understanding of the type of knowledge each method provides, its disciplinary roots and how each contributes to understanding users, user behavior and the context of use. The background context, clear explanations and sample exercises make this an ideal textbook for graduate students, as well as a valuable reference for researchers and practitioners.

'It is an impressive collection in terms of the level of detail and variety.' (M. Sasikumar, ACM Computing Reviews #CR144066)

Editorial Review

Users Review

From reader reviews:

William Coker:

What do you ponder on book? It is just for students because they are still students or the idea for all people in the world, the actual best subject for that? Just you can be answered for that query above. Every person has various personality and hobby for each and every other. Don't to be pressured someone or something that they don't need do that. You must know how great in addition to important the book Ways of Knowing in HCI. All type of book is it possible to see on many resources. You can look for the internet solutions or other social media.

James Mendoza:

As people who live in the actual modest era should be revise about what going on or information even knowledge to make these keep up with the era which can be always change and advance. Some of you maybe will certainly update themselves by studying books. It is a good choice for you but the problems coming to anyone is you don't know what type you should start with. This Ways of Knowing in HCI is our recommendation to help you keep up with the world. Why, because this book serves what you want and want in this era.

Mark Thomas:

Reading a book tends to be new life style with this era globalization. With looking at you can get a lot of information that may give you benefit in your life. With book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Many author can inspire all their reader with their story or even their experience. Not only situation that share in the textbooks. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors in this world always try to improve their expertise in writing, they also doing some study before they write for their book. One of them is this Ways of Knowing in HCI.

Alfred Greenwell:

Does one one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Aim to pick one book that you find out the inside because don't assess book by its include may doesn't work at this point is difficult job because you are afraid that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer could be Ways of Knowing in HCI why because the fantastic cover that make you consider regarding the content will not disappoint an individual. The inside or content is definitely

fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.
