Cases in Healthcare Finance, Fifth Edition By Louis C. Gapenski, PhD, George H. Pink

With this casebook, students have the opportunity to apply finance principles and concepts to settings that simulate actual work environments. In that way, the book allows instructors to create a bridge between academic learning and applied practice.

Each of the 32 finance cases presents relevant background on a healthcare organization, along with a financial management decision that students must analyze and then recommend appropriate courses of action. The majority of cases are accompanied by spreadsheet models to help students perform the required analyses.

The casebook also contains seven qualitative mini-cases created to highlight the ethical dilemmas that occasionally arise in the practice of healthcare finance.

Important changes to this edition:

The PowerPoint slides have been changed to allow instructors to first present a short introduction to the case and then, after students have completed their analyses, review each case by discussing three key learning points
