### Star-Crossed: A Sci-Fi Alien Romance By Juno Wells

Making contact with extraterrestrials wasn't part of astronaut Serena Walker's mission. Neither was falling for one. But when a gorgeous, violet-eyed alien rescues her from her damaged starship, suddenly Serena's interstellar mission gets a lot more complicated.

She knows it'll never work out. She's from Earth, and Alzan is from Lithia, and that's a long-distance relationship that's destined to fail. Great. It's just Serena's luck to fall for some hot alien who literally lives a million miles away.

Can these two star-crossed lovers make it work, despite the obstacles?

*This is a short, steamy standalone romance with an HEA.*
