The Gestural Communication of Apes and Monkeys From Psychology Press

The Gestural Communication of Apes and Monkeys is an intriguing compilation of naturalistic and experimental research conducted over the course of 20 years on gestural communication in primates, as well as a comparison to what is known about the vocal communication of nonhuman primates. The editors also make systematic comparisons to the gestural communication of prelinguistic and just-linguistic human children. An enlightening exploration unfolds into what may represent the starting point for the evolution of human communication and language.

This especially significant read is organized into nine chapters that discuss:

- *the gestural repertoire of chimpanzees;
- *gestures in orangutans, subadult gorillas, and siamangs;
- *gestural communication in Barbary macaques; and
- *a comparison of the gestures of apes and monkeys.

This book will appeal to psychologists, anthropologists, and linguists interested in the evolutionary origins of language and/or gestures, as well as to all primatologists. A CD insert offers video of gestures for each of the species.

Editorial Review

Review

"This is an edited volume of excellent quality that will make an important contribution to research on primate gestures and the evolution of language. All chapters are very well written and well integrated in terms of both structure and content."

Dario Maestripieri

The University of Chicago

About the Author

Josep Call is a comparative psychologist specialising in primate cognition at the Max Planck Institute for Evolutionary Anthropology. He is also the co-founder of the Wolfgang Kohler primate research centre and has an extensive back catalogue of works including 3 books and nearly 200 peer-reviewed articles.

Michael Tomasello is Codirector of the Max Planck Institute for Evolutionary Anthropology, Leipzig. He is the author of "The Cultural Origins of Human Cognition" and "Constructing a Language: A Usage-Based Theory of Language Acquisition."

Users Review

From reader reviews:

Theresa Adams:

Have you spare time for a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the actual Mall. How about open or read a book allowed The Gestural Communication of Apes and Monkeys? Maybe it is for being best activity for you. You recognize beside you can spend your time using your favorite's book, you can better than before. Do you agree with its opinion or you have other opinion?
