Healthcare Administration: Concepts, Methodologies, Tools, and Applications By Information Resources Management Association

As information systems become ever more pervasive in an increasing number of fields and professions, workers in healthcare and medicine must take into consideration new advances in technologies and infrastructure that will better enable them to treat their patients and serve their communities.

Healthcare Administration: Concepts, Methodologies, Tools, and Applications brings together recent research and case studies in the medical field to explore topics such as hospital management, delivery of patient care, and telemedicine, among others. With a focus on some of the most groundbreaking new developments as well as future trends and critical concerns, this three-volume reference source will be a significant tool for medical practitioners, hospital managers, IT administrators, and others actively engaged in the healthcare field.

Editorial Review

About the Author

Information Resources Management Association (IRMA) is a research-based professional organization dedicated to advancing the concepts and practices of information resources management in modern organizations. IRMA's primary purpose is to promote the understanding, development and practice of managing information resources as key enterprise assets among IRM/IT professionals. IRMA brings together researchers, practitioners, academicians, and policy makers in information technology management from over 50 countries.

Users Review

From reader reviews:

Kirk Banks:

Book is usually written, printed, or illustrated for everything. You can realize everything you want by a publication. Book has a different type. We all know that that book is important issue to bring us around the world. Close to that you can your reading ability was fluently. A book Healthcare Administration: Concepts, Methodologies, Tools, and Applications will make you to be smarter. You can feel considerably more confidence if you can know about anything. But some of you think which open or reading any book make you bored. It is far from make you fun. Why they might be thought like that? Have you seeking best book or appropriate book with you?

Theresa Villarreal:

What do you think about book? It is just for students because they are still students or the idea for all people in the world, the actual best subject for that? Merely you can be answered for that issue above. Every person has various personality and hobby for each and every other. Don't to be compelled someone or something that they don't would like do that. You must know how great and also important the book Healthcare Administration: Concepts, Methodologies, Tools, and Applications. All type of book can you see on many methods. You can look for the internet sources or other social media.

Regina Winger:

People live in this new moment of lifestyle always aim to and must have the time or they will get wide range of stress from both lifestyle and work. So , when we ask do people have time, we will say absolutely without a doubt. People is human not just a robot. Then we consult again, what kind of activity do you possess when the spare time coming to you actually of course your answer will unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, the book you have read is definitely Healthcare Administration: Concepts, Methodologies, Tools, and Applications.

Williams Carter:

As a scholar exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some reserve, they are complained. Just tiny students that has reading's spirit or real their pastime. They just do what the trainer want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Healthcare Administration: Concepts, Methodologies, Tools, and Applications can make you sense more interested to read.
